SMART HOTEL BOOKING SYSTEM

INTRODUCING

La Extravaganza

A full-stack booking platform for a four-floor Auckland boutique hotel, with live room availability, staff & manager dashboards and an AI concierge.

Book smarter. Stay better.

Smart bookings.
Seamless stays.

LUXURY HOSPITALITY
SMARTER TECHNOLOGY

Search Book Stay

Explore the System

Room Search
Free rooms & prices for your exact dates

Floor Map
Every room, floor by floor, live

Online Booking
Secure checkout & instant confirmation

Staff Console
Check guests in & out by shift

Manager Dashboard
Live revenue, occupancy & pricing

Aria AI
An assistant that really books & checks in

What You'll Discover

Real-time availability
Calendars and the floor map update for any dates, with no double bookings.

Secure, role-based access
Separate experiences for guests, staff and managers with encrypted logins.

Live business insight
Dashboards refresh the moment a booking happens: 7, 30 & 90-day trends.

AI with real actions
Aria finds rooms, proposes bookings and helps staff check guests in.
